REQUEST FOR CERTIFICATE OF CORRECTION UNDER 37 CFR 1.323

The patentee of the above-identified patent hereby requests the issuance of a Certificate of Correction. The certificate is required to correct a clerical / typographical errors which were not the fault of the Patent and Trademark Office, and which occurred in good faith.

Claim 1

A comma has been removed from claim 1 (after the word "leg

Claim 22

The word "means" has been added to claim 22 (five times). This corrects a typographical /clerical error with no effect on claim meaning.

Claim 22 states in part "a first hull means ...the first hull...said first hull..." (see the first paragraph after the preamble). The word "means" has been added to the second and third occurrence of the terms "first hull" in the attached Certificate of Correction.

The term "the" in the phrase "the first hull" means that the first hull has already been introduced in the claim. In other words, it is the same first hull as previously mentioned. Since the first occurrence of "first hull" includes the terms "means", it is not new matter to add the word "means" to the second occurrence of "first hull".

Similarly, the third occurrence of "first hull" includes the term "said". The term "said" also signifies that the first hull has already been introduced. For the same reason, it is proper to add the word "means" to the third occurrence.

Analogous changes have been made to the second and third paragraphs of claim 22.

Finally, the word "means" is added to the last occurrence of "the cavity" in claim 22 for analogous reasons (i.e., there is a previous reference to "cavity means").

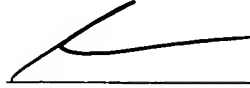

Hence, the addition of the term "means" does not represent new matter and is simply the correction of typographical / clerical errors. It is believed that these corrections do not result in any change in claim meaning or scope.

It is respectfully requested that a Certificate of Correction be issued to correct the errors in the issued Letters Patent. Enclosed herewith are two copies of a proposed Certificate of Correction.

Dated:

5/20/05

Respectfully submitted,
